GUIDELINES FOR POSTER PRESENTATION

GENERAL GUIDELINES

- Abstracts should be written in English. Abstracts that are submitted must NOT have been previously presented in any other conference or published anywhere in any form.

General aim and format

- A poster is a graphically based approach to present a research work.
- Use “visuals” (graphs, photographs, maps or schematics etc.) to present the poster.

Design and layout specifications

- The entire poster must be prepared to be displayed on a 4' X 3' flex or art paper (minimum 250 GSM).
- The poster must be oriented in the portrait position (long dimension is vertical).
- Make it obvious to the viewer how to progressively view the poster. The poster should read from left to right and top to bottom.
- It is advisable to use a minimum font size of 18 points for text materials and 60 points for title. The poster must be readable from a distance of 1.5 meter.
- Present numerical data preferably in the form of graphs rather than table.
- Visuals should be simple and self explanatory. Leave out any unnecessary details.
- Make sure that the visuals can stand alone i.e graph axes are properly labeled, maps have north arrows and distance scales, symbols are explained.
- Use colour to enhance comprehension, not to decorate the poster.

Poster presentation

- Poster should be in English.
- The presenter must be present at the exhibition site half an hour before the scheduled time.
- The presenter should remain at the poster site for discussion for his/ her work throughout the scheduled time of display of poster.
- The presenter may distribute handouts, but there will be no copying facility at the conference venue.
- Please communicate to the organising committee of AHPCON 2016 if the presenter is unable to exhibit the poster.
- If there is any change of the presenting author, the new presenting author must be registered for the conference.
